PROFESSIONAL EXPERIENCE

Java Android Developer | Arisetty Technologies Private Limited, Indore — Jun 2025 - Jun 2026

Project: KavachApp - Enterprise Workflow Automation Application

- Built and maintained 30+ screens using Activities, Fragments, XML layouts, View/Data Binding and Material Design across Attendance, Leave, Visitor, Gate Pass, Incident Reporting and a map-based Patrolling module.
- Integrated 10-15 REST APIs via a custom HttpsRequest layer (Fast Android Networking + OkHttp) with token auth, JSON/Gson parsing, validation and error handling; added Firebase/FCM push, Crashlytics, Google Maps/FusedLocation and third-party SDKs.
- Debugged with Logcat, Postman and Crashlytics, optimized performance, managed Gradle builds and collaborated via Git/Jira; officially mentored 2 junior developers through code reviews, debugging and UI/UX guidance.

Application Developer Intern | Logical Soft Tech Pvt. Ltd., Indore — Aug 2024 - Feb 2025

Project: Pharmacy Store Application

- Built medicine search, cart, order placement and tracking with admin inventory management; applied Activity lifecycle, Intent navigation, REST integration and persistent storage fundamentals.

KEY PROJECTS (GITHUB)

GharKaBazaar - Hyperlocal Marketplace App (In Progress) | Kotlin, Jetpack Compose, MVVM, Retrofit, Coroutines, Hilt

- Building customer, business and admin flows from a design system with an agentic AI coding assistant and full manual review - API-driven catalog, cart/orders, loading/error states and Hilt DI.

SkillForge - Online Learning App | Kotlin, Jetpack Compose, MVVM, Retrofit, Coroutines, Hilt, Coil, Navigation Compose

- Three screens (Home, Course Detail, Lesson) with horizontal category lists, popular courses, instructor cards, free/locked lessons, video-lesson UI, loading/error states and a JUnit test.

UserDirectory - User Directory App | Kotlin, MVVM, Retrofit, Coroutines, StateFlow, Glide, ViewBinding, Parcelize

- Splash to list to detail flow using a paginated REST API (limit/skip); sealed UI states (Loading, Success, Error, No Internet, Empty), SwipeRefresh with retry, DiffUtil list, tel/mailto/maps intents and card masking.

Brewkery - Coffee & Bakery Ordering App | Kotlin, Jetpack Compose, MVVM, Retrofit, Coroutines, Coil

- Four-screen flow (Menu, Detail, Cart, Order Status) with category filters, live price customizations, subtotal + $2.50 delivery + 8% tax, unit-tested billing math and loading/error/retry states.
